Water Lilies

FROM

The Hazel Dell Water Gardens

CANBY, ORE.

Located one mile north-east of Canby on Pacific Highway.

Visitors Welcome

It's a joy to plant your own pool, watch it develop and then to behold daily the marvelous beauty of—

WATER LILIES

The Culture of Water Lilies

Establishing the Water Garden. The most important things in establishing a successful pool are to have the depth of water right and an abundance of good garden loam in which the plants are to grow. **We build our pools 2 feet deep, which allows for 1 foot of soil and 1 foot of water over the plants.** These give the best average results, though the depth may be greater or less and still the plants thrive.

Distance Apart to Plant. A pool 6 feet across will comfortably accommodate 3 or 4 lilies as well as Water Poppies, Water Hawthorne, Arrowhead, Water Hyacinth, Water Iris or equivalent plants. A pool 10 feet in diameter will accommodate 6 to 10 lilies, depending upon their vigor, and also a number of Water Poppies, Iris and other such plants. As a general rule, it is well to allow from 3 to 5 feet between the plants. In very large pools a more natural effect may be gained by planting a number of roots in a group and separating the groups by a little open water.

Sand to Cover Boxes. An inch layer of sand or gravel spread over the boxes after planting will help to keep the water clear. This is particularly true where a fine clay soil is used.

When to Plant. Planting of the Hardy lilies may be begun from February to May, depending upon the location.

Green Scum. The green scum sometimes found in pools will disappear when the leaves shade the surface. Allowing the pool to overflow will keep it in check.

Mosquitoes and Goldfish. There will be no annoyance from mosquitoes where a few goldfish are kept in the pool. Allow about 12 fish to a 6-foot pool. These will take care of any mosquito wigglers hatching in the water and aid in keeping the water sweet and clear. This is one rule that works every time.

Assistance in any matter pertaining to water gardening will be gladly given.

Guarantee. All plants are guaranteed to be true to name and in good condition when shipped. Owing to conditions over which we have no control—weather and care—it is impossible for us to assume any responsibility for results after planting. Complaints, if any, can be considered only when tendered at time plants are received.

How to Order. ..Be sure to write the names and colors of any plants ordered. All orders must be accompanied by full payment for the amount of order. We pay shipping charges any place west of the Mississippi River.

Include the names of five prospective customers with your order for water lilies and we will send to you free of charge a liberal collection of water pants.

Make all checks or money orders to THE HAZEL DELL WATER GARDENS, Canby, Oregon.

Planting. When the lilies are received care should be taken to **prevent their becoming dry before planting.**

They may be covered with wet burlap. After the boxes are prepared a small hole may be scooped out and the plant put in place, horizontally, and not upright, with the growing end just flush with the surface.

Boxes versus Mud Bottoms. There are two commonly used methods of planting—in boxes or by spreading the soil over the concrete of the bottom to the required depth. Both have their good points according to conditions. For the large pool or where varieties must be kept, separate boxes are recommended. In small pools where the space is restricted, plants often make better growth on a mud bottom as it allows more root room. Boxes shoud be 1 to 2 feet square and 1 foot deep.

RED WATER LILIES

Gloriosa: This is a magnificent variety with flowers from four to six inches across, of beautiful form which flaot on the water. They are of a deep carmen rose color. becoming a deep red with age. The plant is very free in flower, blooming continuously throughout the season. This lily is the best of this class for all purposes. $3.50 each.

Escarboucle. The most brilliant flowered of ail the red water lilies. Bright intense red, deepening to crimson, with garnet stamens. A free flowering, strong growing variety, well repaying any attention given it. One of the hardiest and best yet introduced. $5.00.

Conqueror: The largest bloom of the hardy varieties. The flowers are bright red, with petals shaded into white on the concave part, and streaked with deep red on the convex surface; stamens are yellow orange. The showiest water lily in cultivation. $3.00

James Brydon: A superb variety, being a free bloomer, with rose crimson flowers four to five inches in diameter. $2.50.

Ellisiana. For brilliancy of coloring this water lily is not surpassed. The color is a peculiarly livid red and when seen in the sunlight seems to fairly glow with brightness. The blossom is of good size, rather similar to Glory but brighter. Like all the red lilies of this type it is very free in flowering. One of the most admired lilies in our pools and very popular. $3.00 each.

Robinsoni. An old and beautiful variety that should be in every collection. The flowers are rich red overlaid with yellow, producing a beautiful warm tone. The leaves are very pretty, speckled with maroon and ruffled on the sinus. The plant blooms freely and continuously, and is one of the best for massing. $2.50 each.

PINK

Rose Arey. This lily is of exceptional beauty, color and fragrance. The flowers may reach eight inches in diameter and are a deep cerise pink. This variety seems to be in bloom all the time. The plants make a strong heavy growth. $2.50.

William Doogue. A magnificent lily. Flowers cup-shaped, 5 to 6 inches across, of beautiful shell-pink; de-

liciously fragrant. The plant is a continuous bloomer. $2.00.

Eugenia de Land. Flowers of exquisite shade of deep rose pink with petals long lanceolate, yellow stamens. Very fragrant. $2.00.

W. B. Shaw. This lily is of the N. Odorata type. The flowers open wide and are of a rich rose-pink color. Very fragrant. One of the first to open in the morning and the last to close at night. $2.50.

Pink Opal. A deep rich pink with a pleasing fragrance. A short petalled flower, standing well above the water. $2.00 each.

Masaniello. A large pink flecked with white. The plant is a good strong growth and a free bloomer. $2.50.

Morning Glory. A large pink lily of the Marliac type from the Independence Gardens. The color is a light shell pink, almost white at the tips of the petals, shading deeper toward the center of the flower. It is a strong grower and good bloomer and is sure to be a favorite when it is better known. $2.50.

Somptuosa. One of the largest and brightest of the pink sorts. The broad, open flowers are deep pink toward the center, growing lighter outward—a most pleasing combination. The leaves are prettily spotted, the plant a strong grower and free bloomer. A recent introduction. $3.00.

SUNSET COLORS

Commanche. Perhaps the best of all the copper colored sorts. Brilliant, glowing, amber red overlaid with yellow deepening to red with age. A steady free bloomer, one of the first to open in the spring and among the vanguard in the fall. The plant is sturdy and hardy, thriving under the most adverse conditions. $3.00 each.

Paul Hariot. Splendid copper pink flowers overlaid with yellow as they open, deepening in color on each successive day till they are suffused with red. The flowers are quite large, floating and cup-shaped and freely borne. The plant is hardy and does well under almost all conditions, being an exceptionally good variety for beginners in water gardening. $2.50 each.

Aurora. Flowers are rosy yellow on the first day, red-orange on the second, and deep red on the third day. The stamens are orange-red and the leaves are mottled with brownish red. $1.50.

YELLOW

Sunrise. It is the largest of all hardy lilies with blossoms over 11 inches across. Even as a young plant it surpasses all other in siee. The magnifcent flowers are rased on graceful stems above the water, where they show in pristine glory. The petals have a crepe-like texture and charming gracefulness quite unlike most gigantic blooms. Whenever we have planted it it is invariably chosen for special attention. Best of all, its blooming season is from early spring until cut down by autumn frosts. $5.00.

Chromatella. The clear, clean yellow of Chromatella makes it by far the best yellow variety grown. The broad

petals are canary yellow, the stamens are of a deeper shade, and altogether, this combination displayed among the leaves beautifully marbled in deep green and brown, makes it a picture indeed. $2.00

Marliac Yellow. Bright sulphur yellow in color with broad, curving petals. The leaves are handsomely splotched with bronze red. The plant is very vigorous, hardy and compact, and thrives under adverse conditions. One of the freest in flowering. $1.00 each.

WHITE

Gonnere. We have this finest of white lilies in sufficient quantities, we hope, to supply the demand. Think of an enormous, dazzling globe of snowy whiteness nestling among apple green pads and swaying to the ripples. There are only three really double lilies and this so far surpasses others in dazzling brightness and freedom of flower as to place it by itself. It averages 80 quilled petals to the blossom, being almost a full globe. Words cannot convey its beauty, it must be seen to be properly appreciated. This and Sunrise seem to be the most admired lilies. It is an ideal plant in every way, being a heavy bloomer over a long season and producing an abundance of fine green leaves. $5.00.

Marl. Albida (White). This variety blooms continuously throughout the season. The petals are white, with yellow stamens. A really excellent lily. $1.00 each.

Lactea. Milky white flowers of moderate size. Very distinct variety. $2.00 each.

White Laydeker. (Alba tetragona.) Like the other Laydeker lilies but with pure white blooms. $2.00 each.

Gladstone. A large dazzling white flower with broad, waxy petals and pleasing cup shape. A free flowering variety, opening early in the morning as well as early in the season. Strong growing and vigorous, it appreciates plenty of room. $1.50 each.

Water Plants

Water Hyacinth. (Eichornia crassipes.) The delicate spikes of lavender flowers are as beautiful as an orchid. The plant floats on the water but likes its roots in a cool place, particularly among the lily pads. A good plant for shady locations, blooming well when crowded. Universally used in fish bowls and pools. 15 cents each, 4 for 50 cents, $1.25 dozen.

Water Poppy. (Hydrocleis nymphoides.) An old favorite whose cheerful yellow flowers look for all the world like California poppies. Each pant throws out floating runners bearing many blossoms all summer long. Plant as you would a water lily. A very useful plant. 15 cents each, 4 for 50 cents.

Parrot Feather. (Myriophyllum proserpinacoides.) The feathery green stems trail over the water or foam in soft, airy masses from fountain basins. 15 cents per bunch, $1.50 per 12 bunches.

Japanese Arrowhead. (sagittaria sagittifolia.) Arrow-shaped leaves and spikes of white blossoms. A lush, thrifty grower, thriving in shallow water. 25 cents each.

Water Plants [Continued]

Fish Grass. (Anacharis canadensis gigantea.) The most used variety. Graceful stems with whorls of deep green leaves. 15 cents per bunch.

Ludwigia Mulertti. One of the prettiest submerged plants. Oval leaves tinged with pink. 15 cents per bunch.

Water Cress. Thrives in sun or shade. Does well in shallow water. 15 cents each.

Cattail. (Typha latifolia.) Universally admired as one of the prettiest native swamp plants. 25 cents each.

Ribbon Grass. (Phalaris arundinacea variegata.) Forms pretty, loos clumps, 2 to 3 feet tall. The leaves are striped green and white. A hardy, free growing plant. 25 cents per clump.

Shell Flower or Water Lettuce. (Pistia stratiotes.) A rosette of fluted blue-green velvety leaves. Grows best in a shady pool. 50c for 2; $2.00 per dozen.

Japanese Snails. Scavengers that keep the pool clean. $2.00 per dozen; $12.00 per 100.

Gold Fish

Terms and Conditions. All fish are in first-class condition and properly packed when shipment is made. We do not assume any responsibility for loss, damage or delay in transit nor for results after delivery.

Shipping. In all cases it is our aim to select pairs, but owing to the difficulty of accurately determining the sex we cannot guarantee this.

Selected Goldfish. A general assortment from 3 to 6 inches long. $3.00 per dozen; $20.00 per 100.

Japanese Fantails. Beautiful fish with broad tails and bright coloring. Gold or marked black and white. A hardy, choice and inexpensive fish. Year old $1.00 pair.

Calico Fantails. Fine broad tails with the color of Shubunkins.

Comet Tails. Graceful, lithe bodies with long flowing tails. A very handsome strain quick in their movements and adding vivacity to the pool. These were developed by American breeders. Bright red gold in color. Year old $1.00 per pair.

Shubunkin or Calico Fish. A beautifully mottled fish with a pattern of blue, gold, red and black. Ours are particularly bright and you will be very pleased with their handsome coloring. This is one of the most popular fish we have. Year old $1.00; $5.00 per dozen.

Calico Telescope. A handsome fish marked in color as are the Shubunkins and with broad, drooping fantail and protruding telescope eyes. A unique and very attractive fish.

Common Gold Fish. 25 cents to 50 cents each according to size. All our gold fish are 3 to 4 inches long.

We do not pay shipping costs on gold fish.

Collection of Water Plants and Lilies

The Convenient and Economical Way to Buy

AN EASY, practical way to have an attractive, harmonious planting is to buy in collections. Ours have always been popular, for the selections are from the finest varieties. Many other combinations will suggest themselves to the experienced water gardener, and we are always interested in having new ones described or photographed so that we may list them another year.

Marliac Trio, $5

(Collection No. 1)

This group contains three very fine hardy lilies of the true Marliac type. They are free blooming, fragrant and beautiful.

Chromatella. The most popular of the yellows.
Marliac Rose. Large; a deep rose color.
Marliac White. Large sparkling white flower.

Rainbow Collection, $12

(Collection No. 2)

A gorgeous rainbow garden of water lilies. Each lily is a gem in its particular color and class.

Morning Glory. Delicate shell-pink.
Gloriosa. Large red; the finest red.
Paul Hariot. Chameleon orange-pink.
Chromatella. Deep yellow; the best yellow.
Marliac Albida. White.

Aurora Trio

(Collection No. 3)

A very attractive group of choice colors which will please you.

James Brydon. Red.
Marliac Yellow. Canary yellow.
Masaniello. Beautiful rose.
Price for the collection, $5.50.

Pride of Canby

(Collection No. 4)

This collection is suitable for a small pool.

James Brydon. Red.
Chromatello. Yellow.
Albida. White.
Price for the collection, $5.00.

Pride of Oregon

(Collection No. 5)

A pleasing collection. Attractive in any pool. All choice lilies.

Comanche. Orange red.
Somptuosa. Giant pink.
Sunrise or Gonnere. Your choice.
Gladstone or Marliac Yellow. Your choice.
Price, $11.00.

All collections are sent post-paid. We will also include a nice assortment of water plants free with each collection.
